INSTALLATION

Determine what installation process you will utilize. We recommend that, regardless of installation type chosen, a Certified Playground Safety Inspector (CPSI) inspect your playground upon completion of installation. Costs for this inspection may vary.

- Full Service, Professional Installation
- Professionally Supervised Installation
- Community Build or Volunteer Installation

Target date for installation: _

BUDGET

All expense categories need to be considered in your budget during the planning and design phases of your playground project. Understanding the monies needed for each category will assist in you fundraising and organizing for your new playground!

Delivered Cost of Your Equipment:

This information should be supplied to you by your Burke Representative based on your playground design.

Site Preparation:

This can vary based upon the amount of work that is (required leveling, excavation, fill, etc.). Your Burke Representative or local contractor can assist you in determining this amount.

Removal/Disposal of Old Equipment:

Your Burke Representative or local contractor can assist you in determining this amount.

Safety Surfacing:

Resilient material is a requirement on all playgrounds. Costs vary greatly from material to material; you must base your decision on accessibility requirements, budget, region and maintenance needs.

Project Total:

Your Burke Representative would be happy to meet with you and guide you through the process of planning your playground. Call **800.266.1250** for the Representative nearest you or visit our website at **bciburke.com**.
